

NO2ID PETITION: STOP THE DATABASE STATE

We the undersigned believe that the growth of the database state is a threat to freedom in Britain.

We demand in the name of privacy and liberty that:

- Government bodies must cease all unnecessary collecting of personal information about law-abiding residents of the United Kingdom.
- The passing of personal information between government bodies, or using it for new purposes, without the genuine, informed consent of the persons concerned or a specific warrant from a court must stop.

We call on the government to:

- Establish positive protections in law for individual privacy, and
- Give everyone a right to compensation from anyone who uses our personal information in an unauthorised way.
